

SOCIAL RESPONSIBILITY

We act responsibly in the communities in which our business units operate. We also support charitable projects our co-workers are involved in.

Occupational safety and health

Our commitment to safety and security at work is supported by management and involves close monitoring of the indicators of our business units in the field of Safety.

Training and development

Developing the skills of our employees is a permanent priority for us. TIAB supports the transfer of know-how between generations, as well as the putting into practice of the theoretical knowledge accumulated during the years of studies. The training programs are meant to allow employees to realize their potential.

We get involved in the community

Because we care and strongly believe in an ecological behavior that supports the environment and the community in which we live.
